Go your own way Experience the freedom

Western Australia, from the inside out

Let us inspire you

WA Experts is a personal, small business that offers self drive tours through Western Australia. We are not just another 4WD car-rental service, our customers have all the freedom to customize their trip, just the way they like it.

The best way to discover Australia's remote areas is with a 4WD campervan, fitted with all modern conveniences. We welcome tourists from all corners of the world to beautiful Western Australia. At WA Experts we speak English and Dutch.

A great value holiday for everyone

Couples, young families or pensioners, we offer great value holidays for everyone. Our Troopies are well maintained and suit all your travel needs. Even small children can be transported safely. They will love sleeping in the Electric Rooftop Tent!

All our Troopies are fully equipped with camping gear, bedding, table and chairs, cooking utensils, water tanks, safety aids and more. With some planning it is possible to remain completely isolated for a few weeks without any problems.

Self drive: enjoy utter freedom

Adventurous travellers want to drive whenever and wherever. We make it possible by helping our customers prepare their self drive tours and plan a route through Western Australia together with them. Off course, we'll take the time frame, personal preferences and limitations into account. We can assist in planning and organising a trip from door to door, or we can just supply a rental car and some sound advice. The customer is king.

One way trips

Many of our customers want to pick up a vehicle in one location and drop it off somewhere else. These are so called "One Way Rentals". We can organise One Way Rentals between most Australian locations as long as there is an airport.

Common trips are between Perth, Broome and Darwin but we regularly have travellers in Alice Springs, Adelaide, Exmouth or even as far as Melbourne, Sydney or Cairns!

Contact us to discuss your preferred locations and we will do our best to make it happen.

Wonderful Western Australia

We are WA Experts

“What I love most about WA is the emptiness, the weather, the friendly people, the wild nature and animals in it: kangaroos, emus, goannas and beautiful birds. Also, fishing at remote locations, the opportunity to escape the city and feeling the connection with the ancient land and aboriginal culture while being all alone... And the way of life - no worries mate.”
