info@waexperts.com.au

Type

Clamshell, hard skin tent opening up by approx. 45 degrees

Size and weight

The Big Country Penthouse Tent is one of the largest tents available

External footprint: 1466 x 2300mm Mattress footprint: 1366 x 2200mm

Weight: 95kg

Shape

The aerodynamic shape results in a height (when closed) from front to back of 200 -300mm

This also allows for the storage of more bedding inside the tent.

Material of construction

| | |
|--------------------|---|

Mattress

75mm mattress made up of

- 50mm VP70 High density foam
- 25mm VP45 Convoluted foam for extra comfort

Covered in a removable and washable cotton twirl mattress cover

Fly sheet

400gsm Grey PVC Vinyl

Velcro attached and therefore removable if not required

Deployed using two sprung steel rods

Load bearing capacity

The Lid is strengthened on the inside with numerous cross members and is fitted on the outside with aluminium extrusion tracks which will have a spread-load bearing capacity of approx. 80kg. Provided this load is concentrated as far forward as possible.

Anti-Condensation

The tent is supplied fully carpeted inside on the ceiling

Ladder

Telescopic Aluminium ladder supplied in a canvas bag

Fasteners

All fasteners used are 304 Stainless Steel

Zips

YKK – Series 10

Warranty

The tent carries a 12 month warranty against poor workmanship and/or faulty design

Easy Deployment

Simply unclip the two latches and give the lid a nudge to open.

Two sleeping bags with pillows are easily accommodated.

Accessories supplied as standard
